

Phototherapy Goggles

Lifeband phototherapy goggles

Blocks harmful light to baby eyes

- Provides protection from phototherapy light
- Special eye-pad material blocks light to the eyes, while headband design allows phototherapy light to reach baby head.

Provides a perfect fit

- Remains securely in place with unique Y-shaped design
- Conforms to any head shape with easy-to-use, adjustable tabs

Safe and comfortable

- Patented material minimized the risk of skin irritation and is not made with natural rubber latex.
